Quick Install Guide
Full HD PoE/Wireless N Cube Network Camera

This document will guide you through the basic installation process for your new D-Link Network Camera.

DCS-2210/DCS-2230
DCS-2210/DCS-2230 Quick Install Guide

This installation guide provides basic instructions for installing the DCS-2210/DCS-2230 Network Camera on your network. For additional information about how to use the camera, please see the User’s Manual which is available on the CD included in this package or from the D-Link support website.

Installation Steps

1. Verify the package contents against the list below.
2. Hardware Overview
3. Hardware Installation
4. Configuration with Wizard

1. Package Contents

- DCS-2210 or DCS-2230 Full HD PoE Network Camera
- Camera Stand
- Manual and Software on CD-ROM
- CAT5 Ethernet Cable
- Power Adapter
- Quick Install Guide

If any of the above items are missing, please contact your reseller.
2. Hardware Overview

Rear Panel

- **Ethernet**
  The RJ45 connector for Ethernet (DCS-2210 supports PoE which can also be used to power the camera)

- **Power Connector**
  Connects to the included DC 5V power adapter

- **I/O Connector**
  I/O connectors for external devices

- **Adjustment Ring**
  Tighten or loosen the adjustment ring to adjust the camera's position

- **Base Holes**
  Can be used with cable ties to attach camera to a surface

- **WPS button (DCS-2230 only)**
  Press this button, then press the WPS button on your router to set up a wireless connection automatically

- **Reset**
  Press and hold this button for 10 seconds to reset the camera

Front Panel

- **Status LED**
  Indicates the camera's current status

- **ICR Sensor**
  The IR-Cut Removable sensor monitors lighting conditions and switches between color and infrared accordingly

- **Infrared LED**
  Used to illuminate the camera's field of view at night

- **PIR**
  Passive Infrared sensor for motion detect

- **Camera Lens**
  Records video of the surrounding area

- **Microphone**
  Records audio from the surrounding area

- **WPS LED (DCS-2230 only)**
  WPS status indicator LED

- **Speaker**
  Audio output
Left Panel

Micro SD Card slot
Local storage for storing recorded image and video
3. Hardware Installation

Basic Connection
Connect the camera to your switch or router via Ethernet cable. Connect the supplied power cable from the camera to a power outlet.

Connection Using a PoE Switch (DCS-2210 only)
If using a PoE switch or router, connect the network camera via Ethernet cable. PoE will transmit both power and data over a single cable.

Note: Once power has been established, the LED will turn red. When the device has obtained an IP address and is accessible, the LED will turn green.
4. Configuration with Wizard

Insert the DCS-2210/DCS-2230 CD into your computer’s CD-ROM drive to begin the installation. If the Autorun function on your computer is disabled, or if the D-Link Launcher fails to start automatically, click **Start > Run**. Type `D:\autorun.exe`, where D: represents the drive letter of your CD-ROM drive.

Click **Setup Wizard** to begin the installation.

After clicking Setup Wizard, the following window will open.

Click **Next** to continue.

Click **Yes** to accept the License Agreement.

To start the installation process, click **Next**.

**Note:** The installation may take several minutes to finish.

Click **Finish** to complete the installation.
Click on the **D-Link Setup Wizard SE** icon that was created in your Windows Start menu.

**Start > D-Link > Setup Wizard SE**

The Setup Wizard will appear and display the MAC address and IP address of your camera(s). If you have a DHCP server on your network, a valid IP Address will be displayed. If your network does not use a DHCP server, the network camera's default static IP **192.168.0.20** will be displayed.

Click the **Wizard** button to continue.

Enter the Admin ID and password. When logging in for the first time, the default Admin ID is **admin** with the password left blank.

Click **Next**, to proceed to the next page.

Select DHCP if your camera obtains an IP address automatically when it boots up. Select static IP if the camera will use the same IP address each time it is started.

Click **Next**, to proceed to the next page.

Take a moment to confirm your settings and click **Restart**.
Viewing Camera via Web Browser

Click on the D-Link Setup Wizard SE icon that was created in your Windows Start menu.

Start > D-Link > Setup Wizard SE

Select the camera and click the button labeled "Link" to access the web configuration.

The Setup Wizard will automatically open your web browser to the IP address of the camera.

Enter admin as the default username and leave the password blank. Click OK to continue.

This section shows your camera’s live video. You can select your video profile and view or operate the camera. For additional information about web configuration, please refer to the user manual included on the CD-ROM or the D-Link website.
