The D-Link DXS-3600 Series Top-of-Rack 10 Gigabit Managed Switch are a set of new, compact, high-performance switches that feature very low latency wire speed 10G Ethernet switching and routing. The 1U height and selectable front-to-back or back-to-front air flow make the DXS-3600 Series suitable for enterprise and campus aggregation network environments. The DXS-3600 Series switches have 8 or 24 fixed 10G SFP+ ports and can accommodate more ports with the addition of an expansion module. The expansion modules not only provide extra 10G SFP+ ports, but also increase flexibility by allowing 120G stacking or low-cost 10GBASE-T connections for different applications.

Convenient Deployment

The DXS-3600 Series provides your network with high-performance 10G Ethernet switching capacities of up to 960 Gbps and forwarding rates of up to 714 Mpps. These switches feature hot-swappable power supplies and fan trays, which enable the switches to have redundant, high-availability architecture. When inserting two power modules, both power modules share the load and help to extend the lifetime of the other. The DXS-3600 Series also features a modular fan design; three fans can back up each other, providing 2+1 redundancy for the system. If a fan fails or the temperature rises, the smart fans will adjust their speed automatically.

Flexible Software

The DXS-3600 Series can be deployed using one of two different software images. The Standard Image (SI) features a wide range of Layer 2, VLAN, multicasting, Quality of Service (QoS), security, data center, and static routing functions. The Enhanced Image (EI) features comprehensive IPv4/IPv6 routing including RIP, VRRP, OSPF, BGP, and L3 multicasting features such as IGMP, MLD, PIM-DM, SM, SDM, SSM, and DVMRP. The Enhanced Image (EI) also supports L2/L3 MPLS VPN which enables the DXS-3600 Series to be deployed as the core router of an enterprise environment, or as an aggregation switch in an MPLS environment.
DXS-3600 Series Top-of-Rack 10 Gigabit Managed Switch

Data Center Features

Data Center Bridging (DCB) is an essential set of enhancements to Ethernet for networking in data center environments. The DXS-3600 Series switches support several core components of Data Center Bridging (DCB) such as IEEE 802.1Qbb, IEEE 802.1Qaz, and IEEE 802.1Qau. IEEE 802.1Qbb (Priority-based Flow Control) provides flow control to ensure there is no data loss during network congestion. IEEE 802.1Qaz (Enhanced Transmission Selection) manages the allocation of bandwidth based on different traffic classes. IEEE 802.1Qau (Congestion Notification) provides congestion management for data flows within network domains to avoid congestion. The DXS-3600 Series switches also support cut-through switching, which reduces latency when transmitting data in a network.

Energy-Efficient

The DXS-3600 Series allows users to manage airflow by using different power and fan module configurations. Front-to-back airflow optimises air circulation to provide more effective cooling throughout rack systems in data centers where the switches are used when compared to side-to-side airflow. The switches also feature built-in smart fans. Internal heat sensors monitor and detect temperature changes and automatically adjust the fan speed accordingly. At lower temperatures, the fans will run slower, reducing both the switch’s power consumption and noise.

Stacking with DXS-3600-EM-Stack (DXS-3600-32S only)

- Up to 96 10G SFP+ ports
- Up to 480G stacking bandwidth
- High redundancy and reliability

Stacking with DXS-3600-EM-Stack module

D-Link Assist

If the worst should happen to your network you need the very best support and fast. Downtime costs your business money. D-Link Assist maximises your uptime by solving technical problems quickly and effectively. Our highly trained technicians are on standby around the clock, ensuring that award-winning support is only a phone call away.

With a choice of three affordable service offerings covering all D-Link business products, you can select the package that suits you best:

D-Link Assist Gold - for comprehensive 24-hour support
D-Link Assist Gold is perfect for mission-critical environments where maximum uptime is a high priority. It guarantees four hour around-the-clock response. Cover applies 24/7 for every day of the year including holidays.

D-Link Assist Silver - for prompt same-day assistance
D-Link Assist Silver is designed for ‘high availability’ businesses that require rapid response within regular working hours. It provides a four hour response service Monday to Friday from 8am to 5pm, excluding holidays.

D-Link Assist Bronze - for guaranteed response on the next business day
D-Link Assist Bronze is a highly cost-effective support solution for less critical environments. Response is guaranteed within eight business hours Monday to Friday from 8am to 5pm, excluding holidays.

D-Link Assist can be purchased together with any D-Link business product. So whether you’re buying switching, wireless, storage, security or IP Surveillance equipment from D-Link, your peace of mind is guaranteed. D-Link Assist also offers installation and configuration services to get your new hardware working quickly and correctly.

## L3 Features
- **ARP**
  - 512 Static ARP
  - Supports Gratuitous ARP
- **IP Interface**
  - Supports 256 interfaces
  - Loopback Interface
  - IPv6 Neighbor Discovery (ND)
- **Default Routing**

## Stackability
- **DXS-3600-32S with:**
  - DXS-3600-EM-Stack expansion module: 480G stacking bandwidth
  - Physical Stacking
    - Up to 480G stacking bandwidth
    - Up to 4 switches in a stack
    - Ring/chain topology support
  - Virtual Stacking/Clustering of up to 32 units
  - Supports D-Link Single IP Management

## L2 Features
- **MAC Address Table**
  - 128K entries
- **Flow Control**
  - 802.3x Flow Control when using full-duplex
  - Back Pressure when using half-duplex
  - HOL Blocking Prevention
- **Spanning Tree Protocol**
  - 802.1D STP
  - 802.1w RSTP
  - 802.1s MSTP
- **L2 Multicast Features**
  - **L2 Multicast Filtering**
    - Forwards all groups
    - Forwards all unregistered groups
    - Filters all unregistered groups
  - **MLD Snooping**
    - MLD v1/v2 Snooping
    - Supports 4K groups
    - Host-based MLD Snooping Fast Leave
  - **IGMP Snooping**
    - IGMP v1/v2/v3 Snooping
    - Supports 4K IGMP groups
    - Supports 1K static multicast addresses
    - IGMP per VLAN
    - Host-based IGMP Snooping Fast Leave
    - PIM Snooping

## L2 Multicast Features
- **802.1Q**
- **802.1v Protocol-based VLAN**
- **Double VLAN (Q-in-Q)**
- **Port-based Q-in-Q**
- **Selective Q-in-Q**
- **Port-based VLAN**
- **MAC-based VLAN**
- **Subnet-based VLAN**
- **Private VLAN**
- **VLAN Group**
  - Max. 4K static VLAN groups
  - Max. 4094 VIDs
  - GVRP
  - Up to 4K dynamic VLANs
  - VLAN Translation
  - ISM VLAN (Multicast VLAN)
  - Private VLAN
  - Super VLAN
  - VLAN Trunking

## L3 Routing
- **Static Routing**
  - Max. 1K IPv4 entries
  - Max. 512 IPv6 entries
  - Supports secondary route
  - Supports Equal Cost/Weighted Cost multi-path route
- **Default Routing**

## VLAN
- **L2 Multicast Features**
  - **L2 Multicast Filtering**
    - Forwards all groups
    - Forwards all unregistered groups
    - Filters all unregistered groups
  - **MLD Snooping**
    - MLD v1/v2 Snooping
    - Supports 4K groups
    - Host-based MLD Snooping Fast Leave
  - **IGMP Snooping**
    - IGMP v1/v2/v3 Snooping
    - Supports 4K IGMP groups
    - Supports 1K static multicast addresses
    - IGMP per VLAN
    - Host-based IGMP Snooping Fast Leave
    - PIM Snooping

## AAA
- **802.1X Authentication**
  - Supports port-based access control
  - Supports host-based access control
  - Dynamic VLAN assignment
  - Identity-driven policy (VLAN/ACL/QoS) assignment
  - Web-based Access Control (WAC)
  - Supports port-based access control
  - Supports host-based access control
  - Dynamic VLAN Assignment
  - Identity-driven Policy (VLAN/ACL/QoS) Assignment
  - MAC-based Access Control (MAC)
  - Supports port-based access control
  - Supports host-based access control
  - Dynamic VLAN Assignment
  - Identity-driven Policy (VLAN/ACL/QoS) Assignment
  - Guest VLAN
  - Compound Authentication
  - Microsoft NAP
  - Supports 802.1X NAP
  - Supports DHCP NAP
  - RADIUS and TACACS+ authentication
  - Authentication Database Failover
  - Trusted Host

## Standard Image (SI) Features
- **Stackability**
  - DXS-3600-32S with:
    - DXS-3600-EM-Stack expansion module: 480G stacking bandwidth
    - Physical Stacking
      - Up to 480G stacking bandwidth
      - Up to 4 switches in a stack
      - Ring/chain topology support
    - Virtual Stacking/Clustering of up to 32 units
    - Supports D-Link Single IP Management
- **L2 Features**
  - **MAC Address Table**
    - 128K entries
  - **Flow Control**
    - 802.3x Flow Control when using full-duplex
    - Back Pressure when using half-duplex
    - HOL Blocking Prevention
  - **Spanning Tree Protocol**
    - 802.1D STP
    - 802.1w RSTP
    - 802.1s MSTP
  - **Virtual Stacking/Clustering of up to 32 units**
  - **Port Mirroring**
    - Supports One-to-One, Many-to-One
    - Supports Mirroring for Tx/Rx/Both
    - Supports 4 mirroring groups
    - Flow Mirroring
    - Supports One-to-One, Many-to-One
    - Supports Mirroring for Rx
    - Supports 4 mirroring groups
    - RSPAN mirroring
    - Loopback Detection
    - L2 Protocol Tunneling
- **L2 Multicast Features**
  - **L2 Multicast Filtering**
    - Forwards all groups
    - Forwards all unregistered groups
    - Filters all unregistered groups
  - **MLD Snooping**
    - MLD v1/v2 Snooping
    - Supports 4K groups
    - Host-based MLD Snooping Fast Leave
  - **IGMP Snooping**
    - IGMP v1/v2/v3 Snooping
    - Supports 4K IGMP groups
    - Supports 1K static multicast addresses
    - IGMP per VLAN
    - Host-based IGMP Snooping Fast Leave
    - PIM Snooping
### DXS-3600 Series Top-of-Rack 10 Gigabit Managed Switch

#### QoS (Quality of Service)
- 802.1p Quality of Service (QoS)
- 8 queues per port
- Queue handling
  - Strict
  - Weighted Round Robin (WRR)
  - Weighted Deficit Round Robin (WDRR)
- QoS based on:
  - 802.1p Priority Queues
  - DSCP
  - IP address
  - MAC address
  - VLAN
  - IPv6 Traffic Class
  - IPv6 Flow Label
  - TCP/UDP port
- Bandwidth Control
  - Port-based (ingress/egress, min. granularity 8 Kb/s)
  - Flow-based (ingress/egress, min. granularity 8 Kb/s)
  - Per queue bandwidth control (min. granularity 8 Kb/s)
- Three Color Marker
  - tTCM
  - s/tTCM
- Congestion Control
  - WRED
- Support for following actions:
  - Remark 802.1p priority tag
  - Remark TOS/DSCP tag
  - Bandwidth Control
  - Committed Information Rate (CIR)

#### Access Control List (ACL)
- ACL based on:
  - 802.1p priority
  - VLAN
  - MAC address
  - EtherType
  - IP address
  - DSCP
  - Protocol type
  - TCP/UDP port number
  - IPv6 Traffic Class
  - IPv6 Flow Label
- Max. ACL entries:
  - 1792 ingress ACL rules
  - 1K egress ACL rules
  - 3K VLAN Access Maps
  - Time-based ACL

#### Security
- Port Security
  - Supports up to 12K MAC addresses per port/system
- Broadcast/Multicast/Unicast Storm Control
- D-Link Safeguard Engine
- DHCP Server Screening
- IP-MAC-Port Binding (IMPB)
- Dynamic ARP Inspection
- IP Source Guard
- DHCP Snooping
- IPv6 Snooping
- DHCPv6 Guard
- IPv6 Route Advertisement (RA) Guard
- IPv6 ND Inspection
- ARP Spoofing Prevention
- Max. 64 entries
- Traffic Segmentation
- SSL
  - Supports v1/v2/v3
  - Supports IPv4/v6 access
- SSH
  - Supports v2
  - Supports IPv4/v6 access
- BPDU Attack Protection
- DOS Attack Prevention

#### Management
- Web-based GUI
- CLI
- Telnet Server/Client
- TFTP Client
- FTP Client
- Traffic Monitoring
- SNMP
  - Supports v1/v2c/v3
- SNMP Trap
- System Log
- DHCP Client
- DHCP Server
- DHCP Relay options 12, 60, 61, 82
- Multiple Image
- Multiple Configuration
- Flash File System
- DNS Resolver
- CPU Monitoring
- MTU Setting
- LLDP/LLDP-MED
- DNS Relay
- SMTP
- DHCP Auto Configuration
- SNTP
- RCP (Remote Copy Protocol)
- RMONv1
- RMONv2
- Trusted Host
- Password encryption
- Debug command
- IPv6 Stateless Address Auto-configuration (SLAAC)
