Overview

The D-Link Cloud Router 5700 (DIR-865L) with 802.11ac technology gives you the world’s fastest wireless speed — up to 1750 Mbps (1300 AC + 450 N) — for flawless HD streaming to multiple devices. That’s because 802.11ac speed is 3 times faster than any conventional routers. This router is also app-enabled to enhance your mobile lifestyle. Our ground-breaking apps allow you to stream and share media and even add storage to your iPhone, iPad or Android device. The Cloud Router 5700 delivers comprehensive, whole-home wireless coverage, and its high-powered signal makes it ideal for larger homes, patios and even backyards. And while your home gains the cutting-edge benefits of 802.11ac, the Cloud Router 5700 is also compatible with all of your current devices.

1 Maximum wireless signal rate derived from draft IEEE 802.11ac specifications. D-Link makes no warranties as to forward compatibility with future standards or compatibility with draft 802.11ac devices from other manufacturers. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors may adversely affect wireless signal range.

2 24/7 Basic Installation Support is available only in the USA for the first 30 days from date of original purchase.

3 1-Year Limited Warranty available only in the USA and Canada.

4 The inclusion of a specific product or manufacturer does not imply its endorsement of D-Link or the D-Link product.

5 Computer must adhere to Microsoft’s recommended System Requirements.
