

2.4GHz Wireless LAN

802.11g Ethernet to Wireless LAN Client Adapter

The AirPlusXtremeGTM DWL-G810 is a high-speed Ethernet-to-Wireless LAN Client Adapter that converts virtually any Ethernet device such as set-top box, game console, printer, laptop and desktop computer to a wireless network device. The DWL-G810 acts as a client bridge between Ethernet and a wireless LAN, providing seamless integration between the two network types. With the DWL-G810, you can also share Ethernet-enabled printers in the home or office without stringing cable through walls or ceilings. Gamers can join multiple-player video games with others on the Internet wirelessly, using a high-speed broadband connection.

Up to 108Mbps Transmission Speed

The DWL-G810 provides speeds of up to 108Mbps Super G Turbo mode when used with other D-Link AirPlusXtremeGTM and other 802.11g products. This compares favorably with 802.11b devices that offer 11Mbps transmission. The DWL-G810 provides all the high speed using a single 2.4GHz wireless frequency, eliminating the complexity of dualband networking. This enhanced speed and adoption of 2.4GHz frequency, now available for public use in most countries, plus the mobility and convenience inherent in a wireless LAN, make this device an ideal solution for bandwidth intensive WLAN applications.

Plug and Play

Simply plug this compact device to an Ethernet interface, and your computer, print server, game console and other equipment will instantly become a wireless LAN device. No configuration is necessary. Your device can transparently operate on a D-LinkAirPlusXtremeG[™], 802.11g or any 802.11b wireless network.

Easy Settings

With its Web-based configuration interface, more advanced settings can be applied in the DWL-G810. When connecting to another DWL-G810, this Ethernet to Wireless LAN Client Adapter requires no configuration at all. You can use

Key Features

- Easy, fast wireless connection for Ethernet devices
- 802.11g wireless LAN standard
- 2.4GHz frequency band
- Up to 108Mbps Turbo mode data transfer rate*
- *Real throughput 15 times faster than 802.11b*

the convenient Setup Wizard for the easy installation of your DWL-G810. Whether you are using it in Ad-Hoc mode or Infrastructure mode, you can begin with the Setup Wizard.

Interoperable With Wireless LAN Equipment

DWL-G810 interoperates with all 802.11b and 802.11g wireless equipment. This Ethernet-to-Wireless LAN Client Adapter offers multiple non-overlapping channels to minimize interference from other wireless networks.

Security

The DWL-G810 provides choices of 64-bit, 128-bit and 152-bit WEP (Wired Equivalent Privacy) encryption, giving you an increased level of protection for sensitive data transmission and prevention of intruders from gaining access to your network connection. WPA is supported.

Cost-effective

The DWL-G810's low cost allows you to convert any Ethernet device or network adapter to a wireless device. In the ad-hoc mode, the DWL-G810 even lets your wired network device operate with other wireless devices without the need for any Access Point.

- 10/100Mbps Ethernet port with auto MDI/MDIX connection to network device
- WPA security, 64/128/152-bit WEP data encryption
- Ad-hoc and infrastructure modes
- Web-based configuration

DWL-G810 Technical Specifications

Standards

- IEEE 802.11g wireless LAN

- IEEE 802.3/802.3u 10BASE-T/100BASE-TX Fast Ethernet

Adapter Type Fast Ethernet to 802.11g Wireless LAN

Device Port

10/100BASE-TX Ethernet port with auto MDI/MDIX

Media Access Control Protocol CSMA/CA with ACK

Network Architecture Types

Supports ad-hoc and infrastructure modes

Operating Mode Wireless client

Network Transfer Rate/Modulation Technique

- 802.11b:
- 11Mbps, 5.5Mbps: CCK 2Mbps: DQPSK 1Mbps: DBPSK
- 802.11g:
- 108Mbps Super G, 54Mbps, 48Mbps, 36Mbps, 24Mbps, 18Mbps, 12Mbps, 9Mbps, 6Mbps: OFDM (Orthogonal Frequency Division Multiplexing)

Frequency Range

2.4 to 2.4835 GHz

Operating Channels

- 1 to 11 channels (FCC)
- 1 to 13 channels (ETSI)

Antenna

2dBi Gain detachable external dipole antenna (reverse SMA connector)

Operating Range *

- Indoor: up to 100 meters (328 feet)
- Outdoor: up to 400 meters (1,312 feet)

* Environmental factors may adversely affect range

Transmitter Output Power

15dBm (32mW) +/- 2dB

Data Security

- WEP 64/128/152-bit data encryption (user-selectable)
- Wi-Fi[™] Protected Access PSK with TKIP, MIC, IV Expansion, Shared Key Authentication

Configuration/Management

Web-based (Internet Explorer v.6 or later, Netscape Navigator v.7 or later, or other Java-enabled browsers)

Physical & Environmental

Diagnostic LEDs - Power - WLAN

DC Input 5V 2.0A

Power Supply Through external power adapter

Dimensions 88 (W) x 80 (D) x 31 (H) mm

Weight 153 grams

Operating Temperature 0° to 55 °C

Storage Temperature -20° to 75 °C

Humidity Up to 95% non-condensing

2.4GHz Wireless LAN

Emission Certification

- FCC Class B - CE Class B

- CE Class

Safety Certification

Connecting Ethernet Devices to a Wireless Network
