

Highlights

Mobile Broadband

Share an 3G HSPA+ connection with multiple smartphone, tablets and notebooks, with download speeds of up to 21.6 Mbps

Stay Informed

OLED display allows you to see the status of your router to help you stay connected.

Stay Safe

Uses a built-in firewall and industry-standard WPA/WPA2 security protocols to keep your data safe

Go Anywhere

Small enough to fit in your pocket, and the rechargeable battery means you're not tied to a wall outlet

DWR-730

Portable HSPA+ Mobile Router

Features

Connectivity

- USIM card slot for connection to mobile Internet services
- 802.11b/g certified, and compatible with 802.11n devices
- microSD card slot allows you to add storage
- Micro-USB port for easy charging

Portability

- Up to 5 hours of battery life in one charge so you can stay connected for longer
- Small size lets you drop it in a purse or pocket and take it wherever you go

Security

- WPA/WPA2 Wi-Fi security protocols provide the latest in wireless security
- Built-in firewall keeps unwanted connections out
- Wi-Fi Protected Setup (WPS) for one-touch secure setup with other devices

Compatibility

- Works with different OS platforms including MacOS, Windows, and Linux

D-Link's DWR-730 Portable HSPA+ Mobile Router allows you to connect your notebook, tablet and smartphone to the Internet from anywhere there is a 3G connection and share this connection with other users wirelessly. This router is ideal for people that need a portable solution, for example remote workers or people that are moving house and need a temporary Internet connection.

Connect and Share Your 3G Connection

Simply insert your data-enabled SIM card and the DWR-730 will allow you to share your 3G mobile Internet wirelessly. Get all your mobile devices connected to the Internet or share a 3G Internet connection with family, friends or colleagues when you are out and about. The DWR-730 also allows you to access files on your microSD card with the built in microSD card slot³. Share holiday pictures with your family and friends, or documents and presentations to your colleagues on a business trip by simply connecting the DWR-730 to a computer through USB. The Portable HSPA+ Mobile Router lets you connect with others and share what's important to you while you're on the go.

Portable and Secure

This router is small enough to fit in your pocket whilst the built-in rechargeable battery means that you can take it anywhere with you and surf the Internet. If you need to recharge it, you can do it easily with any USB wall or car charger. The useful OLED display keeps you informed on the real-time status of your 3G Internet connectivity and signal as well as battery, SMS messages and number of devices connected.

The Portable HSPA+ Mobile Router may be small but it can keep your wireless connection as secure as if you were connected through your home network. Its built-in firewall prevents potential attacks and hacking attempts from the Internet, and with WPA2 encryption, you can be sure that you are sharing your 3G connection only with the users you want to.
