Router
- Connect up to Four Ethernet-enabled PCs
- Advanced Firewall and Parental Controls Features Secure Your Network
- User-friendly Web-based Management

USB Adapter
- Convenient USB 2.0 Interface to Connect to a Desktop or Notebook PC
- Site Survey Utility to Detect and Connect to Available Wireless Networks

[1] Maximum wireless signal rate derived from IEEE Standard 802.11g specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.
[2] 3-Year Warranty and 24/7 Technical Support available only in the U.S.A
