

Document: How to configure your D-Link modem (DSL-320T, DSL-320B) with BeThere ISP. Date: 6-Nov-08

How to configure BETHERE ISP line using modem (DSL-320T, DSL-320B) and router (DIR-635, DIR-655, DIR-855).

1) The modem needs to be configure in 1483 Bridged IP LLC mode with VPI: 0 and VCI: 101 (VCI and VPI are specific for BETHERE ISP)

2) Configure your router using Manual Internet Connection Settings

- 3) Next step depends on the type of connection provided by BeThere.
 - You have to choices
 - 1) Static IP
 - 2) Dynamic IP

3a) Static IP

- Choose Static IP in Internet Connection Type
- Type in your connection details (IP address, Subnet mask, Default gateway, Primary DNS server, Secondary DNS server).
