|   |                            |                                       |                      |

## Click on tools

Then select Update gateway. And you will get the below screen

| Mtp://192.168.1.1/cgi-las/webcm - Microsoft Internet Englorer | ta ta  |
|---|--|
| i Edit View Pgrontes Iools Help                               |  |
| tach + + · O 2 2 O Diesch affeortes Oriede (                  |  |
| http://192.168.1.1/cg-bir/webcm                               | Pice Livis Odek.cok Ond.dek.com.te Ome OMAGE Gidektipate |
|   |  |

Click on browse under the update gateway firmware.

In the folder where the zip file is expanded you will get option for 2 files

Fs file
Kernel File

Select The FS file then click on update gateway. It will start copying the files across.

Once the file has gone through and the unit has rebooted login again

You now need to send the kernel file through

Once the upgrade has finished the unit will reboot.

Once the unit has been rebooted and you are logged in go to Tools and update gateway.
