

Highlights

High Performance

Remove bottlenecks and future-proof the network with up to 714.3 Mpps forwarding rate and 960 Gbps throughput

Reliability

The DXS-3600-32S supports dual power supplies and load sharing for AC/DC power, as well as Data Center Bridging features for lossless Ethernet

Energy Saving

Intelligent, removable smart fans and front-to-back airflow unifies airflow direction in the data center and minimizes power consumption of the switch

DXS-3600-32S

24-Port Top-of-Rack 10 Gigabit Managed Switch

Features

High Performance and Flexibility

- Two AC hot-swappable power modules for 1+1 power redundancy and load sharing
- Three hot-swappable fan trays with front-toback airflow and N+1 cooling redundancy
- Up to 480G stacking bandwidth with four devices functioning together as a single unit

Data Center Features

- IEEE 802.1Qbb Priority-based Flow Control (PFC)
- IEEE 802.1 Qaz Enhanced Transmission Selection (ETS)
- IEEE 802.1Qau Congestion Notification (QCN)

Advanced Features

- MPLS
- · OSPF/BGP/IS-IS
- ERPS (G.8032 v1/v2)
- Three Color Marker

Easy Management

- Web-based GUI, Command Line Interface (CLI)
- RADIUS/TACAS+
- · LLDP/LLDP-MED

OAN

- IEEE 802.3ah Ethernet link OAM
- IEEE 802.1ag
- ITU-T Y.1731

The D-Link DXS-3600-32S 24-Port Top-of-Rack 10 Gigabit Managed Switch is a compact, high-performance switch that features very low latency wire speed 10G Ethernet switching and routing. The 1U height and front-to-back airflow make the DXS-3600-32S suitable for enterprise and campus aggregation network environments. It has 24 fixed 10G SFP+ ports and can accommodate more ports with the addition of an expansion module. The expansion modules not only provide extra 10G SFP+ ports, but also increase flexibility by allowing 120G stacking, 40G uplinks, or low-cost 10GBASE-T connections for different applications.

Convenient Deployment

The DXS-3600-32S provides your network with high-performance 10G Ethernet switching capacities of up to 960 Gbps and forwarding rates of up to 714 Mpps. These switches feature hot-swappable power supplies and fan trays, which enable the switches to have redundant, high-availability architecture. When inserting two power modules, both power modules share the load and help to extend the lifetime of the other. The DXS-3600-32S also features a modular fan design; three fans can back up each other, providing 2+1 redundancy for the system. If a fan fails or the temperature rises, the smart fans will adjust their speed automatically.

Flexible Software

The DXS-3600-32S can be deployed using one of two different software images. The Standard Image (SI) features a wide range of Layer 2, VLAN, multicasting, Quality of Service (QoS), security, data center, and static routing functions. The Enhanced Image (EI) features comprehensive IPv4/v6 routing including RIP, VRRP, OSPF, BGP, and L3 multicasting features such as IGMP, MLD, PIMDM, SM, SDM, SSM, and DVMRP. The Enhanced Image (EI) also supports L2/L3 MPLS VPN, which enables the DXS-3600-32S to be deployed as the core router of an enterprise environment, or as an aggregation switch in an MPLS environment.

Data Center Features

Data Center Bridging (DCB) is an essential set of enhancements to Ethernet for networking in data center environments. The DXS-3600-32S support several core components of Data Center Bridging (DCB) such as IEEE 802.1Qbb, IEEE 802.1Qaz, and IEEE 802.1Qau. IEEE 802.1Qbb (Priority-based Flow Control) provides flow control to ensure there is no data loss during network congestion. IEEE 802.1Qaz (Enhanced Transmission Selection) manages the allocation of bandwidth based on different traffic classes. IEEE 802.1Qau (Congestion Notification) provides congestion management for data flows within network domains to avoid congestion. The DXS-3600-32S switches also support cut-through switching, which reduces latency when transmitting data in a network.

Energy-Efficient

The DXS-3600-32S utilises front-to-back airflow for increased cooling efficiency, allowing hot and cold isles to be built in the data center and unifying airflow direction when compared to a mix of back-to-front and side-to-side airflow. Modular power supplies provide the option to use AC or DC power inputs, allowing the most efficient choice for the environment to be chosen. The switches also feature built-in smart fans that monitor and detect temperature changes, adjusting the fan speed for maximum efficiency. At lower temperatures, the fans run at a lower speed, reducing both the power consumption and noise output of the switch.

Stacking with DXS-3600-EM-Stack and DXS-3600-EM-4QXS module

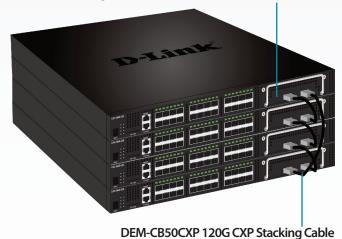

DXS-3600-32S with stacking module to build a physical stacking architecture that provides:

- Up to 96 10G SFP+ ports
- Up to 480G stacking bandwidth
- High redundancy and reliability

 $DXS-3600-32S \ with \ 40G \ QSFP+ expansion \ module \ to \ build \ a \ physical \ stacking \ architecture \ that \ provides:$

- · Longer distance stacking by connecting 40G transceivers and fiber cables
- Up to 160G stacking bandwidth
- · High redundancy and reliability

Stacking with DXS-3600-EM-Stack module

DXS-3600-EM-4QXS, the 40G QSFP+ module

DEM-CB100QXS, the 40G QSFP+ to QSFP+ DAC

Technical Specifications		
General		
Interfaces	• 24 fixed SFP+ 10G ports with one expansion slot	
Console Port	RJ-45 console port for out-of-band management	
Management Port	• 10/100/1000 BASE-T RJ-45 Ethernet for out-of-band remote management	
SD Card Slot	• 1 slot	
Performance		
Switching Capacity	• 960 Gbps	
Max. Forwarding Rate	• 714.28 Mpps	
Packet Buffer Memory	• 9 MB	
MAC Address Table	• 128K	

Physical			
Power Input	• 100 to 24	10 V AC, 50/60 Hz	
Maximum Power Consumption	116.8 W (without expansion module)160.4 W (with DXS-3600-EM-4QXS)		
Standby Power Consumption	• 88.2 W		
Heat Dissipation (Max.)		398.29 BTU/hr (without expansion module) 546.96 BTU/hr (with DXS-3600-EM-4QXS)	
Heat Dissipation (Standby)	• 300.76 BTU/hr		
Dimensions (W x L x H)	• 440 x 506 x 44 mm (17.32 x 19.92 x 1.73 in)		
Weight	• 10.71	kg (23.6 lbs)	
Operating Temperature	• 0 to 45 °	°C (32 to 113 °F)	
Storage Temperature	• -40 to 70	°C (-40 to 158 °F)	
Operating Humidity	• 0%	to 95% RH	
Storage Humidity	• 0%	to 95% RH	
Certifications			
Safety	• CB	3, cUL, LVD	
EMI/EMC	• FCC, CE	, C-Tick, IC, VCCI

Optional 10G SFP+ Transceivers		
DEM-431XT	10GBASE-SR SFP+ transceiver (w/o DDM), 80 m: OM1 & OM2 MMF, 300 m: OM3 MMF	
DEM-432XT	• 10GBASE-LR SFP+ transceiver (w/o DDM), 10 km	
DEM-410T	SFP+ 10GBASE-T Copper Transceiver	
Optional 1G SFP Transceivers		
DEM-310GT	1000BASE-LX SFP transceiver, single-mode fiber, 10 km, 3.3 V operating voltage	
DEM-311GT	• 1000BASE-SX SFP transceiver, multi-mode fiber, 550 m, 3.3 V operating voltage	
DEM-312GT2	• 1000BASE-SX SFP transceiver multi-mode fiber, 2 km, 3.3 V operating voltage	
DGS-712	• 1000BASE-TX SFP transceiver	
Optional 40G QSFP+ Transceivers		
DEM-QX01Q-SR4	40GBASE-SR4 transceiver, multi-mode, OM3: 100 m/OM4: 150 m	
DEM-QX10Q-LR4	40GBASE-SR4 transceiver, single-mode, 10 km	
Optional 10G SFP+ Direct Attach Cables		
DEM-CB100S	• 10G SFP+ to SFP+ 1 m Direct Attach Cable	
DEM-CB300S	• 10G SFP+ to SFP+ 3 m Direct Attach Cable	
DEM-CB100QXS	• 40G QSFP+ to QSFP+ 1 m Direct Attach Cable	
DEM-CB100QXS-4XS	• 40G QSFP+ to 4x10G SFP+ 1 m Direct Attached Cable	
Optional 120G CXP Direct Attach Cables		
DEM-CB50CXP	CXP to CXP 50 cm Stacking Cable	
10G Ethernet Adapter		
DXE-820T	Dual Port 10GBASE-T RJ-45 PCI Express Adapter
