### FAQ

#### Why is my AN3U not being detected or not working?

1. Ensure your computer meets the minimum system requirements for the AN3U. The AN3U supports Windows 10 / 11.
2. Make sure the adapter is properly inserted into a USB port.
3. Ensure the latest device drivers are installed. The latest drivers can be found and downloaded from the D-Link support website: [www.dlink.com/en/contact-us](http://www.dlink.com/en/contact-us)
4. Insert the AN3U in a different USB port on your computer (if applicable).
5. Try restarting the computer or try installing the AN3U on a different computer to verify if the device is functional.

#### How can I improve the performance of my AN3U?

For optimal performance and to reduce interference, keep the USB adapter clear of any obstructions.

### Installation Instructions

**NOTE:** Before you begin, disable any built-in wireless and/or Ethernet adapters and verify the settings such as the wireless network name (SSID) and security settings of the network(s) you want to connect to.

- 1 / Insert the CD into the CD-ROM drive.  
When the autorun screen appears, **Click on Setup** to install your adapter.  
Alternatively, download the drivers from our website <https://www.dlink.com/en/products/an3u#support>

- 2 / Follow the on-screen instructions to complete the installation.

### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) The device may not cause harmful interface, and
- (2) this device must accept any interface received, including interface that may cause undesired operation.

### Technical Support

Having trouble installing your new product? D-Link's website contains the latest user documentation and software updates for D-Link products. Customers can contact D-Link Technical Support through our website by choosing the relevant region.
