

# Hungarian Academy of Science Switching and Wireless Solutions

## EXECUTIVE SUMMARY

Customer	Hungarian Academy of Science
Industry	Education, Science
Location	Hungary
Challenge	Provide similar solutions for different sub-divisions
Solution	DXS-5000-54S, DXS-3600-32S, DGS-3620, DGS-3420, DGS-3120, DWC-2000, DWC-1000, DWL-8610AP
Results	Satisfied customers

The requirement was to provide complete switching and wireless infrastructure for the 8 institutions within the Hungarian Academy of Science.

### Challenge

The Hungarian Academy of Science had to solve the issues of co-working with and across a number of different institutions, in different sites, with different needs.

### Solution

The Academy had non-homogenous, outdated networks and unsuitable corporate WiFi in most of its institutes. After looking at the various alternatives they awarded D-Link as the best solution to install switching and wireless products as a replacement at one of its institute first.

### Result

On completion of the first new installation for the switching and wireless products, the Hungarian Academy of Science was delighted with the results, but they let each institute to decide on the change by themselves. As the network operators were sharing information, they started to offer D-Link to each other. Finally, all institutes had chosen D-Link as their best supporting supplier, so D-Link products were spread around all 8 locations. After many years of successful cooperation D-Link achieved "Strategic Partner" level at the Academy.
