

## How do I setup my DIR-865L to connect to MyDlink?

If you did not register your DIR-865L with MyDlink during the initial setup, or have performed a factory reset of the device, you can (re)register it from within the device itself.

Step 1 – Open your browser and go to the DIR-865L's IP. The default IP is 192.168.1.1. Login with the username and password. The default username is Admin and there is no password as default.
